SANTIAGO TAPIA BAZÁN

Buenos Aires, Argentina | (+54 911) 2648-5586 | Bazan0897@gmail.com | github.com/Santiagotapia989

PROFILE

Third-year Computer Engineering student focused on Full Stack Development and Process Automation, with a special interest in cybersecurity. Hands-on experience in web applications with C#/.NET, Next.js and React, REST API design and integration, and n8n workflows. 1st place at the CYBER.AR 2026 National Cyber Defense Hackathon. Passionate about solving real-world problems through code and software optimization.

EXPERIENCE

Software Development — Balance Group February 2026

Virtual training program aimed at a junior profile

- Advanced Backend development with C# and .NET Framework.
- Design, documentation and consumption of REST APIs with Swagger / OpenAPI.
- Workflow automation and system integration with n8n.
- Frontend development and web layout with HTML, CSS and JavaScript.

PROJECTS

SIAR — File and Repository Inspection System September 2026

1st Place, CYBER.AR 2026 National Cyber Defense Hackathon — Facultad de Ingeniería del Ejército

- AI-based security tool that analyzes third-party repositories and packages in an isolated environment before they are consumed by AI agents (Cursor, Claude Code, Copilot, MCP).
- Deterministic analyzers (hidden Unicode, prompt injection, typosquatting, secrets via gitleaks) combined with semantic triage powered by a local model (Ollama).
- Full-stack architecture: TypeScript, Node/Express, React 18, Vite and Tailwind, with human token-based approval.

Centro Médico Digital — Appointment Management Platform 2026

- Online medical appointment booking with authentication, PostgreSQL (Prisma) and confirmation emails. Next.js 14, React and TypeScript; deployed on Vercel.

Center Print's S.R.L. — Website & E-commerce Catalog 2026

- Dynamic catalog and shopping cart with Mercado Pago checkout. Next.js 14, TypeScript and Tailwind CSS.

Hackathon UCA — Sustainable Development Competition 2023

- 1st Place. Designed an integral sustainability solution in multidisciplinary teams under time pressure.

EDUCATION

Facultad de Ingeniería del Ejército (FIE) 2024 – Present

Computer Engineering (3rd year in progress)

Hans Christian Andersen School 2019 – 2023

High School Diploma in Social Sciences

LANGUAGES & SKILLS

- Languages: Spanish (native); English B2 Upper-Intermediate — First Certificate in English (Cambridge).
- Technologies: C#/.NET, TypeScript, Node/Express, React, Next.js, PostgreSQL (Prisma), Tailwind CSS, n8n, Swagger/OpenAPI, Ollama, Vercel.
